

# New for September 2022

## Fabulous Food Fast

inspired by street kitchens of the world...

4ork is the awesome and vibrant street food concept inspired by street kitchens from around the world.

From New York to Nepal our bespoke authentic recipes will now be served to our [Plume students](#) from September 22

This will give our student's taste buds a globetrotting culinary experience.

Cooked from scratch using the finest, locally sourced ingredients that are bursting with flavour, you will never find any GM or artificial additives in our dishes.

We let the ingredients speak for themselves; that's why they taste so great.
