

COLLEGE ENROLMENT DAY 2023

Transitional Challenge Information

Year 11 into 12 Summer A Level Transition/Preparatory Work

We ask students who are joining Year 12 in September 2023 to complete a subject specific 'challenge' for each of the A Levels they will be studying. This is to be brought to their first lesson in the subject.

Please be aware that students will be expected to complete a 'transitional challenge' for each subject area.

The purpose of them is:

1. To check that students definitely know what they are signing up for before they commit to it for September 2023, and
2. To give teachers an early indication of student capability, attitude to learning and motivation to complete independent learning tasks.

If you are considering an alternative subject, please look at the relevant transitional challenge to gain an understanding of the course.

The transitional challenges can be located on the Plume Academy website. Please click on Sixth Form College and the Year 11 Transitional Challenge. You will then find on the right, the link to the transitional 'challenges' for 2023 entrants. Please click on the relevant subject area.

If you have any questions, please contact Mrs Demes (College Manager) in the first instance.

We look forward to welcoming you to Plume College on Wednesday 6 September 2023 (8.35 am).

Plume College Team
